## Internet Programming

### Assignment

1) HTML program to design web page for a bike Showroom with the following Specification

(a) Using frameset divide the page with three frame one row and two column

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
<title> Bike Showrooms</title>
```

```
</head>
```

```
<frameset rows="20%, 80%" frameborder="0">
```

```
<frame src="header.html" name="header"
Scrolling="no">
```

```
<frameset cols="50%, 50%" frame border
="0">
```

```
<frameset cols="50%, 50%" frame border="0">
```

```
<frame src="Left-column.html" name="
Left-column">
```

```
<frame src="right-column.html" name="
right-column">
```

```
</frame set>
```

```
</frame set>
```

```
</html>
```

b) The top row frame should display the show room name.

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
<title> Bike Showroom</title>
```

```
</head>
```

```
<frameset rows="20%, 80%" frame border="0">
```

```
<frame src="Showroom-name.html" name="
Showroom-name" scrolling="no">
```

```
<frame src="Content total" name="Content">
```

```
</frame set>
```

```
</html>
```

c) The left column frame should display bike brands with hyperlink.

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
<title> bike Showroom</title>
```

```
</head>
```

```
<frameset cols="30%, 70%" frame
border="0">
```

```
<frame set src="bike-brandshow
html" name="bike-brands">
```

M. Nikitha Reddy

192211109

```
<frame src="Content.html" name="Content">
</frame set>
</html>
```

d) The right column frame should display the corresponding with the specification, when the mobile brand hyperlink in the left column is selected.

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
<title> bike Showroom</title>
```

```
</head>
```

```
<frame set cols="30%, 70%"
frameborder="0">
```

```
<frame src="bike-brand1.html"
name="bike-brand1">
```

```
<frame src="bike-model1.html"
name="bike-model1">
```

```
</frame set>
```

```
</html>
```

- 2) Create a personal portfolio webpage using html & css of the following sample. It should have menu items such as (work, about, blog, contact) with hyper link.

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8">
    <meta name="view port" content="width=device-width, initial-scale=1.0">
    <title> my portfolio </title>
    <link rel="style sheet" href="styles.css">
  </head>
  <body>
    <header>
      <h1> my portfolio </h1>
      <h2>
        <div>
```

```
          <a href="#work">work </a>
          <a href="#about">about </a>
          <a href="#contact">contact </a>
        </div>
      </h2>
```

```
    </div>
```

```
    </h2>
```

```
    <header>
```

```
      <section id="work">
```

```
        <h2> my work </h2>
```

```
        </section>
```

```
      <section id="about">
```

```
        <h2> About me </h2>
```

```
      </section>
```

```
    </body>
```

```
  </html>
```
